

HAZARD ASSESSMENT

NZYF/HS/001

13/10/16

Once completed this form must be submitted to NZYF National Office for review and inclusion to the Hazard/Risk Register.

District/Region:	Assessment Team:	Hazard No (if reviewing current hazard):
-------------------------	-------------------------	---

Hazard Description – *What is the hazard and a basic outline of why it is a hazard.*

Risk Evaluation
Outline the most likely consequence and the likelihood of the injury occurring to identify the risk rating.

Risk Assessment Matrix

Most likely consequence	Probability				
	Almost certain	Likely	Possible	Unlikely	Rare
Extreme	10	9	8	7	6
Critical	9	8	7	6	5
Major	8	7	6	5	4
Moderate	7	6	5	4	3
Minor	6	5	4	3	2

(please circle one of the options above)

- Extreme - Fatality
- Critical - Disabling injury, ie amputation or permanent loss of bodily function. For example, burns, loss of consciousness, hospitalisation of 48 hours or more
- Major - An injury requiring medical treatment and resulting in more than one week off work.
- Moderate - An injury resulting in less than one week off normal duties.
- Minor - Minor first aid injury

Evaluation Details: *Who is likely to be harmed and how?*

Example: Chainsaw – Competitor, judge or spectator could be injured by chainsaw. The chain could come off the chainsaw, the chainsaw could be dropped or unsafe cutting could cause the chainsaw to jump back and hurt user.

Hazard Control:
Is it practicable for the hazard to be:

Eliminated? Yes / No
OR
Minimised? Yes / No

HAZARD ASSESSMENT
